DID WAYNE END LIFE?

Dead Body of Politician Found in Room--Suicide Suspected

Denver, July 6.—John A. Wayne, well known politician and clubman, was found dead in the office of J. B. Belford of the firm of Belford & Schwyder, 220 Coronado building, at 8:30 o'clock this morning. The cause of his death has not yet been determined by the coroner and attendant physicians.

The body was found by George Lindsey, the colored janitor of the building, shortly before Mr. Belford came down to the office. Wayne was lying back in a Morris chair and at first glance appeared to be sleeping. After trying in vain to arouse him Lindsey became frightened and called for help. Several doctors with offices in the building responded and every effort was made to revive him. After working over him for an hour, the coroner was notified.

According to occupants of the building, Wayne came to the office, which had been his headquarters for the past few weeks, late last night. From the time he entered the room until his dead body was found, no one saw him.

According to Lindsey, Wayne was lying back in the chair with his coat and collar open and his shirt unbuttoned. On the window sill to his right was a glass containing some white liquid substance. What was in the glass, no one seems to know. The coroner made a hasty examination of the body in the office, but could not say positively what had caused death.

Wayne lived at the New Broadway hotel and was well known about town. He has held numerous political offices, most of the time at the statehouse. He is 38 years old.

CONVICT IS CANDIDATE

Socialist Labor Party Nominate Man for President Who is In Jail

New York, July 6.—Candidates for president and vice president of the United States were nominated Sunday afternoon and a platform adopted by the national convention of the Socialist Labor party. The ticket named is as follows:

For President—Martin Preston, of Nevada.

For Vice-President—Donald Munroe, of Virginia.

The nomination of Preston for president was unanimous. The candidate was placed in nomination by Daniel De Leon, who characterized the man he was nominating as "an honest, working man," and added: "The name of that man is Martin R. Preston and he is now in jail at Goldfield, Nev. Preston is in jail today for conduct that is honorable and which no working man should be ashamed of."

De Leon explained that Preston had been sentenced to twenty-five years' imprisonment for shooting a restaurant keeper in Goldfield three years ago during a strike. Preston, De Leon asserted, had acted as the protector of defenseless girls and by so doing his action enraged a restaurant keeper named Silver. Silver, Mr. De Leon asserted, was shot by Preston while threatening to kill the latter.

The platform is identical with the one adopted by the party four years ago, and declares for the substitution of the co-operative commonwealth, "for the present state of planless production, industrial war and social disorder."

Travers City, Mich., July 6.—The Northern hotel on Northport bay, in the Leelanau peninsula, thirty miles from here, was burned to the ground early today. The seven guests at the resort, which opened only last Saturday, were forced to flee for their lives, and some of them lost their clothing. Loss, \$80,000.

FLEET OFF ON CRUISE

Sails Today for Honolulu On Another Long Voyage

San Francisco, July 6.—Today is the last day in this harbor for the Atlantic battleship fleet, and for the first time since the arrival of the ships at this port, San Francisco's streets are today free of the wandering groups of sightseeing jacksies that have marked them since the coming of the armada.

Through the night squads of determined young men, armed with weighty arguments in the shape of stout police "billies," searched every nook and cranny of the city, gathering in the straggling sailormen and shipping them by the launch load to their vessels, awaiting the turn of tide Tuesday afternoon, when they will set their course out through the Golden Gate and away to the lands beyond the sea.

Immaculate in white and buff, the sixteen great fighting machines present a striking picture as they ride to their anchors on "Man-o-War" row.

Clouds of dark smoke have been rolling up from the forest of funnels ever since break of day, telling of the work that is going on down in the depths of each ship. Launches are flitting from ship to ship and from ship to shore on countless busy trips, carrying last messages to and from the men who are taking Uncle Sam's big sea fighters around the world and back again.

It will be close to 2 p. m. when the tide marks the flood, and then, with the pull of the ebb helping them out to open sea, the fleet will up anchor and away for Honolulu, the first stop in the world-wide journey. There will be no fuss or ceremony to mark their going. When the signal flags that spell "Make sail" in the language of the sea, go dancing to the signal yard of the Connecticut, the big ships will get aboard their anchors and drop into line behind the flagship, with only the dipping of flags and the hoarse hoots of a few whistles to wish them God speed.

LAWYER SHOTS ALLEGED INSULTER OF HIS WIFE

Loveland, Colo., July 6.—James Ludwick, a prominent attorney of Fort Collins, shot William Austin, a 10-year-old boy of this city, through the abdomen this afternoon. Austin is not fatally injured and will recover unless unlooked for complications set in.

The attorney and his wife were traveling from Fort Collins to this place on this afternoon's train when Austin, who had been drinking heavily, began to amuse himself at the expense of his fellow passengers. In some manner he insulted Mrs. Ludwick and Ludwick drew a revolver and fired. The bullet struck the boy in the abdomen and he was taken off the train here in an unconscious condition.

Ludwick surrendered himself to the police and was released upon bond of \$3,000. Public sympathy seemed with Austin here and the attorney returned to Fort Collins. When seen by a reporter he refused to make any statement concerning the affair.

IMAGINATION CAUSE OF DEATH OF NEUROTIC

Chicago, July 6.—Suffering all the agony, physical and mental, and exhibiting many of the symptoms that accompany death by poisoning, John Neriza died yesterday, the victim of hallucination and auto-suggestion. It is believed his condition resulted from worry because of Fourth of July noise.

Attending physicians found no trace of poison in their examination of Neriza. Members of his family declare that he had eaten nothing that might cause his condition. But the efforts of physicians to assure him that he was not poisoned were futile and he passed into a comatose condition and died after hours of acute suffering.

It was asserted by several physicians that scores of deaths occur annually in every large city from such conditions.

Mr. and Mrs. Frank Colton of Columbus Junction, Iowa, and Mr. and Mrs. Fred Colton and daughter Greta of Koehler, spent the Fourth here in Cimarron.

CHOLERA KILLS ONE

Officer in Philippines Stricken With Disease Dies Suddenly

Manila, July 6.—Lieutenant Jones of the First cavalry, who on June 24 was reported to have been stricken with the cholera, is dead. Lieutenant Muldoon of the Philippine scouts, who contracted the disease while bringing Lieutenant Jones to Camp Gregg from the field, where both were surveying, is recovering. The cholera is receding at Capiz and even in the province of Pangasinan.

The government is proceeding vigorously and hopes to stamp the disease out in the two provinces within one month.

Manila and central Luzon are free from it.

SEVEN MARRIAGES OUT OF EIGHT UNHAPPY

New York, July 6.—On the roof of the Y. M. C. A. building yesterday, the Rev. Charles A. Mitchell, president of the Stella Purity association and the Stella Purity academy and farm at Cherokee, Okla., delivered an address on the subject of moral purity to thirty-seven young men. He denounced the double standard of morality; declared that only one-eighth of the marriages are happy; that the playground of the public school is second only to the saloon as the worst place in this country, and advised all his hearers to abstain from the use of tobacco.

"Mothers ought not to lie to their children," he declared. "They ought not to tell them stories about Santa Claus, for instance, because when the child learns that his mother has deceived him about Santa Claus he will think she will deceive him about other things."

WILSON'S MURDERER

Police Arrest Printer Whom They Suspect Accomplice of Murderer

Philadelphia, July 6.—Under suspicion of knowing something of the case of Dr. William H. Wilson of this city, who died June 26, after drinking poisoned ale, Frederick Gies, Jr., a foreman in a well-known publishing house of Philadelphia, was taken to police headquarters late last night and given a thorough examination today by the detectives who are investigating the murder. Gies is not directly accused of having caused Dr. Wilson's death, but the police say he answers so closely the description of the man wanted that they were compelled to detain him. After a thorough examination of Gies at midnight last night Superintendent of Police Taylor said:

"While the case against Gies is circumstantial, I am quite sure he knows all about the murder, although he denies all knowledge of it. As a result of information we have received I can say that another arrest, that of a doctor, will be made as soon as we can find him."

According to the police, the man who caused the death of Dr. Wilson, committed the crime because the physician performed an illegal operation on his wife, which resulted in her death.

WRECK OF AUTO KILLS A WOMAN

Santa Cruz, Cal., July 6.—Mrs. O. Scribner, wife of the president of the Associated Oil company, was killed in an automobile accident last night while going from this city to Boulder creek in company with her husband and a party of friends.

The machine struck a ledge of rocks by the roadside and turned over, throwing out the occupants. Mrs. Scribner struck on her head, causing concussion of the brain. The body was brought here.
